*The Next Generation MyCare Plan Selection Guide may not include all details of the health benefits all plans must offer and value-added services. Value-added services are subject to change at any time. Visit the Next Generation MyCare plan websites for more information.
**Buckeye Health Plan is not available for new members or those getting care through another MyCare Ohio plan to pick from in plan year 2026.

Purpose

The purpose of this guide is to help you select the health plan best suited to your needs. The guide describes the benefits all Next Generation MyCare plans must offer. It also lists supplemental benefits and value-added services unique to each plan. As you consider your choice, take advantage of this guide and other resources available to you through the Ohio Medicaid Consumer Hotline.

This edition of the Next Generation MyCare Plan Selection Guide reflects benefits provided by the Next Generation MyCare plans as of October 2025. The benefits detailed in this document are subject to change throughout the year. We encourage you to check with the Next Generation MyCare plans to locate the most recent information. You can find additional information in the appendix.

Choosing a Next Generation MyCare Plan?

Visit the Ohio Medicaid Consumer Hotline Portal at https://members.ohiomh.com where you can login and make a plan selection.

Call the Ohio Medicaid Consumer Hotline at (800) 324-8680. Representatives are available 7 a.m. to 8 p.m. Monday through Friday and 8 a.m. to 5 p.m. on Saturday. They can provide interpreters and answer your questions about how to select a plan.

Call the Ohio Senior Health Insurance Information Program (OSHIIP) at (800) 686-1578 or OSHIIPmail@insurance.ohio.gov . Representatives are available from 7:30 a.m. to 5:00 p.m. Monday through Friday. OSHIIP helps with information about Medicare coverage.

*The Next Generation MyCare Plan Selection Guide may not include all details of the health benefits all plans must offer and value-added services. Value-added services are subject to change at any time. Visit the Next Generation MyCare plan websites for more information.
**Buckeye Health Plan is not available for new members or those getting care through another MyCare Ohio plan to pick from in plan year 2026.

Definitions

Next Generation MyCare: An improved healthcare program for Ohioans with both Medicaid and Medicare. It brings together all your care into one plan and offers the full range of traditional Medicaid and Medicare benefits. This includes long-term care, assisted living, nursing facilities, and behavioral health services, along with extra support like transportation and rewards.

Medicare: A federal health coverage program for individuals who are age 65 and older or people who were determined by the Social Security Administration to have a qualifying disability. The program has multiple parts:

- **Part A:** Coverage for inpatient care.
- **Part B:** Coverage for outpatient care.
- **Part C:** Coverage by a Medicare Advantage Plan which combines Parts A and B, and sometimes Part D into a single coverage plan. It may include supplemental benefits as well.
- **Part D:** Coverage for prescription drugs.

Dual Benefit Member: Members who receive both Medicare and Medicare benefits through your Next Generation MyCare plan.

Medicaid-Only Member: Members who receive only your Medicaid benefits through your Next Generation MyCare plan and have a separate plan for your Medicare benefits.

Value-Added Services: Services provided by the Next Generation MyCare plans that are in addition to the required health services that all plans must offer. These services are not available in the Medicaid fee-for-service program.

Supplemental Benefits: A supplemental benefit is an item or service covered by a Medicare Advantage Plan that is not covered by original Medicare. These benefits do not need to be provided by Medicare providers or at Medicare certified facilities. Instead, to receive these items or services, you need to follow your plan's rules. Some commonly offered supplemental benefits are dental care, vision care, hearing aids, and gym memberships.

*The Next Generation MyCare Plan Selection Guide may not include all details of the health benefits all plans must offer and value-added services. Value-added services are subject to change at any time. Visit the Next Generation MyCare plan websites for more information.
**Buckeye Health Plan is not available for new members or those getting care through another MyCare Ohio plan to pick from in plan year 2026.

Care Team: Help you get care through your plan, accessing resources, and advocating for your healthcare needs. All Next Generation MyCare members have care coordinator to help you with your care needs. If you are on a waiver or have Medicare benefits through a different plan, there will be more people you need to work with on your care needs.

Waiver Service Coordinator: A person who is responsible for assisting in coordination of all benefits, services and community resources as well as coordinating and overseeing the usage of all authorized waiver services for members enrolled in Home- and Community-Based Services (HCBS) waiver programs.

24/7 Nurse Hotline: A 24/7 advice line with an experienced staff of registered nurses to assist you with triage care (deciding whether self-care, doctor care, or emergency care is appropriate), understanding a medical condition or recent diagnosis, preparing questions for an upcoming medical appointment, learning more about medications, and more.

Worldwide Emergency/Urgent Care Coverage: Provides medical and dental coverage for unexpected medical emergencies and urgent conditions when you are traveling outside your home country.

Member Advisory Council: Quarterly meetings with the Next Generation MyCare plans to provide you with a chance to share thoughts and ideas on how the plans can better serve you.

Non-Emergency Services: Services that do not require immediate or fast action, such as a minor injury.

Pharmacy: The Medicare Part D program covers most prescription drugs. Some over-the-counter medications are available through Medicaid. You can also visit the Next Generation MyCare plan websites to learn more about pharmacy benefits coverage.

Dental: Services related to dental care such as regular cleanings, X-rays, fillings, dentures, and more.

Hearing: Services related to hearing care such as hearing tests, hearing aids, and more.

Vision: Services related to eye care such as eye exams, glasses, contact lenses, and more.

*The Next Generation MyCare Plan Selection Guide may not include all details of the health benefits all plans must offer and value-added services. Value-added services are subject to change at any time. Visit the Next Generation MyCare plan websites for more information.
**Buckeye Health Plan is not available for new members or those getting care through another MyCare Ohio plan to pick from in plan year 2026.

Community-Based Palliative Care: Services related to advanced care planning, physical symptom management, and access to an interdisciplinary care team to help meet your goals.

Transportation: Transportation services are paid for by the Next Generation MyCare plans and County Department of Job and Family Services Non-Emergency Transportation (NET). Next Generation MyCare plans must provide transportation to medically necessary medical care that is 30 or more miles from your home.

Health and Wellness Program: Programs targeted to provide care for specific populations (babies, children, etc.) or for management of a chronic illness (asthma, diabetes, etc.).

Application or Online Services: Ability to engage with a plan in ways other than telephonically, such as an online member portal to view claims, enroll in incentives, print member ID card, and more.

Qualifying Health Conditions: Diagnosed health conditions that may allow you to get certain supplemental benefits from your plan, if you are enrolled as a dual benefit member. They may include, but are not limited to, diabetes, high blood pressure, heart failure, or Chronic obstructive pulmonary disease (COPD).

Social Determinants of Health (SDOH): Factors that affect how healthy or unhealthy a person is which can include where you live, your income, the safety of your home and neighborhood, if you have access to clean water, healthy foods, clean air, etc.

Specialized Recovery Services Program: Ohio's Specialized Recovery Services (SRS) program is a type of Medicaid eligibility for adults with severe and persistent mental illness for certain diagnosed chronic conditions, and for those actively waiting on specific transplant lists. Individuals who reside in a home- and community-based setting and agree to participate in the development of a person-centered care plan are eligible for services. In addition to full Medicaid coverage, SRS members may receive specialized services that help to maintain stability in the community, improve functioning, and prevent relapse. More information can be found on the ODM website's SRS page.

*The Next Generation MyCare Plan Selection Guide may not include all details of the health benefits all plans must offer and value-added services. Value-added services are subject to change at any time. Visit the Next Generation MyCare plan websites for more information.
**Buckeye Health Plan is not available for new members or those getting care through another MyCare Ohio plan to pick from in plan year 2026.

Health Benefits All Plans Must Offer*
