### Questions to consider when selecting a managed care plan:

A managed care plan is a private healthcare insurance company, which works with the Ohio Department of Medicaid to coordinate your care, provide care management, and provide services to help address your healthcare needs. Here are some questions to consider when choosing your managed care plan:

- Which plan works with all or most of your doctors?
- Which plan works with the hospitals you want to use?
- Which plan offers the extra services you need, such as additional unemployment assistance, access to nutritious foods, education, wellness programs, vision, or dental services?
- Will you have to pay co-pays for dental services, routine eye exams, eyeglasses, mental health, substance use disorder (SUD) benefits, or non-emergency services provided in a hospital emergency department?

To learn more about Ohio Medicaid's Next Generation managed care plans and what they have to offer, refer to the Ohio Medicaid Next Generation Health Plan Comparison located on [www.ohiomh.com](http://www.ohiomh.com).

### Next steps after enrollment:

After the Next Generation plans launch, your managed care plan will send you your member ID card and a member handbook. Your plan will also give you access to their healthcare provider directory. You will get healthcare from doctors and hospitals that work with your plan.

If your doctor does not work with your managed care plan, you can talk to your doctor about becoming part of the plan's network. If you have a medical appointment or scheduled service and your healthcare provider does not work with your plan, call your managed care plan right away.
